I first became interested in software engineering & CIS in 2014 after I was introduced to the field by friends. These acquaintances were acquiring coding skills via a DIY approach, which appealed to my creative and ambitious nature: while software engineering was not a component of my formal education, the idea of teaching myself a new skill seemed like an interesting challenge. I decided to give it a try.

It didn't take long for software engineering to become a major interest: I started an informal curriculum by using online resources, textbooks & by attending user groups. Through networking in these settings I was able to participate in a Java bootcamp & eventually won a systems administration internship. This led to employment as a .Net engineer. In order to continue my career development I chose to seek formal education in the field, recently completing two CIS degrees.

I am currently seeking an internship or entry level position at an organization with a strong culture of mentorship & continued education. I value lifelong learning, and these qualities are important to me in an employer. I am most proficient in .Net & would like an opportunity to further grow these skills. However, I would also be open to learning new tech if the training infrastructure is in place.

Thank you for your time & consideration. Please feel free to contact me if you have further questions.

TECHNICAL SKILLS

My wheelhouse is .Net/C#. I am familiar with the ORM, Entity Framework, and, to a lesser extent, the WAF, ASP.NET. Naturally, I have experience with the most common tools, libraries & frameworks associated with this type of development.

I am acquainted with RDBMS. This would primarily be Oracle & MySQL, as well as the web development technologies HTML, CSS & JS. The DVCS, Git. Additionally, I have worked with a few other computer languages including: Java, Visual Basic, PEARL, R & Python.

EDUCATION

S.W.I.C. | 2019 | Computer Information Systems
S.W.I.C. | 2019 | Software Development
Microsoft | 2019 | Windows Server Admin Fundamentals
Claim Academy | 2015 | Java
S.I.U.E. | 2009 | Sociology
S.W.I.C. | 2006 | Liberal Arts
M.C.H.S. | 2004 | Secondary Education

WORK EXPERIENCE

Self Employed | Painter | St. Louis, MO | 08/17 – Present
Supervisor: Craig Reed Giles Williams | crgw8404@gmail.com

- Interior/exterior painting & wall repair.

Jacobs Corp | Engineer | Harlan, IA | 07/16 - 07/17
Supervisor: Mark Fergason | mfergason@jacobscorp.com

- Introduce the use of a version control system.
- Modify existing software.
- Testing, & bug fixing.

Volano Solutions | Engineer | Omaha, NE | 03/16 - 07/16
Supervisor: Rod Smith | rod@volanosolutions.com

- Communicate with clients, determine needs.
- Create user stories, & task from statements of work.
- Testing, & bug fixing.

The Thaxton | Sous-chef | St. Louis, MO | 01/14 - 02/16
Supervisor: Kim Pitliangas | kp@thethaxton.com

- Assist in food preparation.
- Maintain, & operate culinary equipment.
- Train new employees.

OCI | Systems Admin Intern | St. Louis, MO | 09/15 - 12/15
Supervisor: Chuck Renner | rennerc@ociweb.com

- Stand-up Linux virtual machines.
- Navigate servers, & network via the TUI.
- Preform data migrations.
